## PROMATIC GROUP

### JOIN US TO WIN

**THE largest gambling Expo in Europe is fast approaching – ICE Totally Gaming in London, February 6th - 8th. Participating in the event, among the world leaders of the industry, is the foremost provider of gambling systems from Poland – PROMATIC.**

PROMATIC GROUP is the largest Polish producer of slot machines, systems and games

for the gambling industry. Its presence is among the European, African and Central American markets. During the previous ICE Expo, the company presented its own products and solutions to a considerable interest among the visiting distributors. The growth of the company is visible through the construction of a new factory and a new branch office in Warsaw.

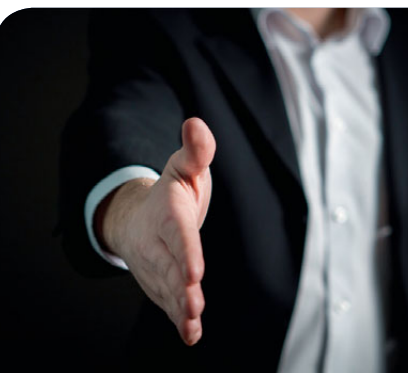

## PROMATIC offer: Exclusive, Premium & Optimum

DURING ICE 2018 PROMATIC Group will show a wide range of products directed toward specific sectors of the gambling industry. First are **EXCLUSIVE** products – designed for casinos. The showcase consists of four islands presenting the newest machine on offer – CASINO 27.

**CASINO 27** is a brand new cabinet, with intuitive use and sleek design in mind. Three wide 27" HD LED screens provide unforgettable excitement during play. The quality to price ratio makes CASINO 27 an interesting offer among the casino-dedicated machines on the market. The live presentation allows everyone to see first-hand its capabilities and design.

The second proposition from PROMATIC is **PREMIUM** products – a response to the needs of casinos and gaming locales that value a good price. The offer of this product consists of four types of MULTIGAME and additional features.

The third part of the offer is **OPTIMUM** – dedicated to smaller entertainment locales. The cabinets meant for these machines are designed for security and durability, made from high-quality materials, to limit any potential damage. They are widely available, affordable and the next step in the industry.

## Possibilities of cooperation

**WE are looking for experienced salesmen specialised in the gambling industry who are ready to develop, grow and retain a portfolio of clients, ensuring a strong professional relationship with them.**

If you have a portfolio of potential clients meet us at ICE 2018 to discuss the possibilities of cooperation and join us to win.

## PROMATIC for operators

PROMATIC Group is present and successful in the Polish market for over 20 years. Now, we are expanding on global markets Europe, Africa and Central America. To create a product of the highest quality, every change, every individual configuration of the machine as demanded by each market, is subject to multiple tests to ensure it. Among our products and technological solutions, the company offers a 24/7 technical support. That way, any potential problem encountered can be solved immediately. Remote access to the management system allows the customer to update the software, making it a convenient and very practical solution.

Thanks to the dynamic growth, **PROMATIC is looking for sales specialists for European, African and American markets.** People, who understand the industry and have business contacts. Specialists should know how to build relationships, setting and achieving goals. The key to this position is contact with business clients and developing a partnership. **If interested, please visit our stand during ICE 2018.**

Many years of experience, the involvement of employees and a great management cadre, PROMATIC is the leader in the gambling industry in Poland. Knowledge of the requirements from operators and player preferences allowed for the stable growth and design of new, improved products and solutions. The best advantage of PROMATIC products is the high quality to price ratio. The offer: EXCLUSIVE, PREMIUM and OPTIMUM is flexible and allows the customers the freedom of choice to find the configuration suited to their individual needs.

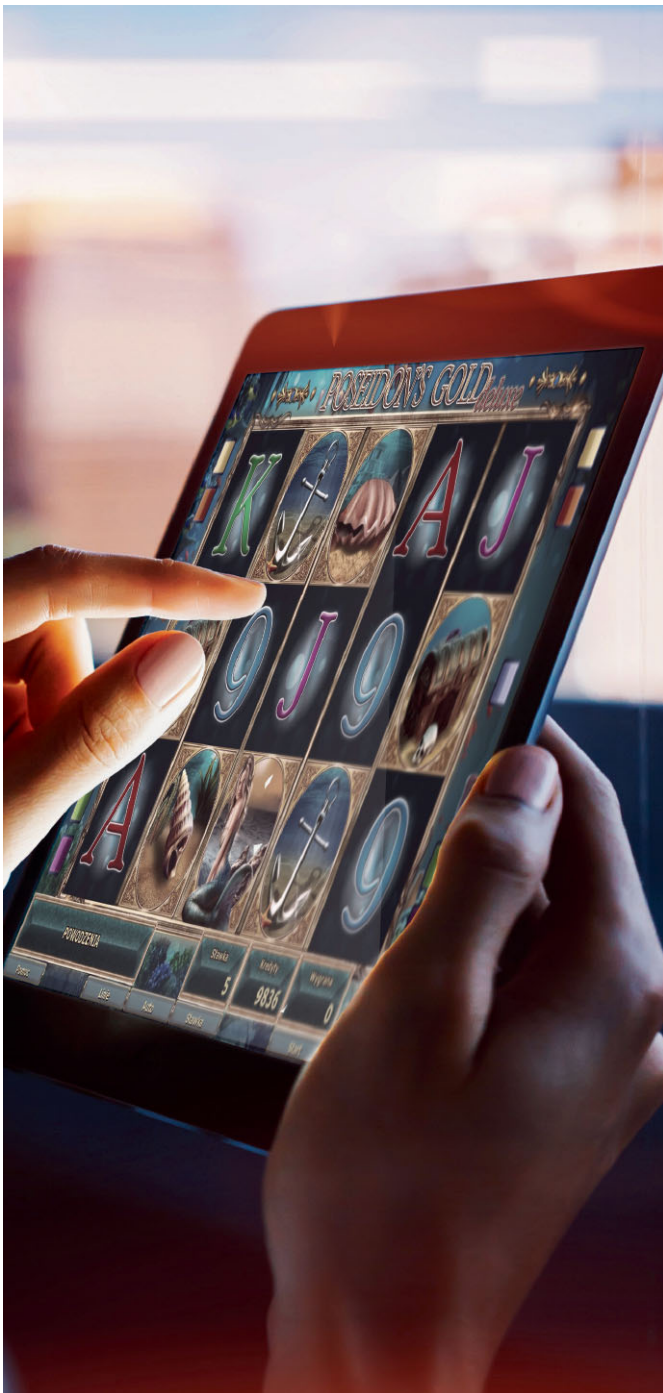

**Details about our offers are available from our PROMATIC GROUP representatives during ICE 2018 (6-8.02.2018) in ExCel London – stand S7-250.**

## Games in HTML5 technology

THE next product, available to try during the London Expo, are **online games in HTML5**. This technology, gaining more and more popularity in the web app market, allows the creation of Internet portals with rich interactive elements in its design. The only thing needed is a web browser, without the need to install plugins and libraries.

The collection of games consists of the most important titles, among them: **Poseidon's Gold** – the underwater kingdom of Poseidon, **Bonus Target** – the fruit bonus with the sweetest victory, **Fun 8** – a game in the retro 8-bit style, **Book of Mystery Deluxe** – popular gameplay in the mysterious Ancient Egypt and many more.

Online HTML5 games are known for their high performance, ease of use and multiplatform presence. It was hard to imagine just a couple of years ago, however now, with this technology, the excitement and fun are available on all devices with a web browser. The number of players using mobile solutions increases every year and online HTML5 games are widely available, affordable and the next step in the industry.
