ABOUT PROMATIC GAMES

Promatic Games is a part of PROMATIC GROUP - the gaming industry business established in 1997. As a manufacturer and distributor of gambling products and software solutions, Promatic Group has grown rapidly. Since the start of our operation, we have evolved as the industry leader on the domestic market. More than 20 years of experience in the business allowed our dynamic expansion to other markets and other related fields, incorporating online games.

Our Background

Promatic Group is the biggest Polish manufacturer of slot machines and system solutions for the gaming industry. We started operating in 1997, initially producing only slot machines. The dynamic growth allowed us to create e-Fun and Promatic Games, specializing in the production of our own games, software and system solutions. Currently, as Promatic Group, we are a comprehensive supplier of products and services that can be used by the largest global casinos. Our team of highly qualified specialists allows us to provide products customized to our clients needs and expectations.

1997 **Promatic Gaming Industry Adventure begins**

Our First Baby is Born: First Game Collection - HOT FUN

Mission Growth Launched: New Software Creators Unit (e-Fun)

We Get Social: Making New Friends in Africa and Europe

Our Games Family Grows: New collection - ENERGY

More in the Family: New collection - TURBO

Even More Games: Welcome HTML5 and New Collection - CLASSIC

We're Certified: ISO 9001:2009 Compliant

We Exhibit: Welcome to ICE Totally Gaming 2017 in London, UK

We Keep Travelling: ¡Hola! Latin America!

Our Activities

We specialize in producing slot machines and creating slot games designed for the largest international casinos. Following the latest trends and technology development, we also create HTML5 games available on our online slot games platform - www.promaticgames.com. The main goal of Promatic Group is to combine the latest solutions with high quality products to provide the best quality of entertainment.

Our Achievements

Our dynamic development and opening of foreign branches allowed us to provide comprehensive services for the gaming industry. Our products are present on the markets of Europe, Africa and Latin America and our portfolio includes high-quality cabinets, own collections of slot games and our own online gaming platform. Our elaborated Jackpot system enabled creating a new brand 9JACKPOT, dedicated to the Nigerian market. Over 20 years of experience in the industry allow us to continue our dynamic growth and to expand company's product offer.

- **We're Certified: RNG Certificate by iTechLabs**
- We Keep Growing: New collection – INFERNO and Single Game DRAGON LEGENDS

How the ‘Promatic Games’ project started

Our desire to create the best gaming experience is at the heart of everything we do. As Promatic Group has grown rapidly over the past years, it was a natural process to expand to other markets and develop new products, including online games.

The number of players using mobile solutions for iGaming strongly influenced the trends in the business. As HTML5 was gaining more and more popularity and the operators’ demand for converting the most successful retail market slot games was growing, Promatic has decided to examine the possibilities and benefits of using HTML5 for online slot games. As a result, several popular slot machine games have been successfully converted to their online versions. After that, we decided to convert all our games, bringing a new platform of superior online games content and solutions to the iGaming market - Promatic Games platform has been launched in 2018, providing a complete solutions for players, aggregators and online games operators.

How our games are made

CONCEPT

We collect and match together great ideas and thoughts about a new game and we create the best concept for it.

DESIGN

So we have a great idea - now let's turn it into reality - we create a story, draw characters, create sounds and design scenarios...

DEVELOPMENT

Here, our perfectly-skilled developers do their best - they code the movements, create game's engine, beautiful animations and much, much more...

IMPLEMENTATION AND TESTING

Now we put all the puzzles together and as the game presents a complete project - we test it.

LET'S PLAY

We've made it - all the arrangements are complete so our new game is now ready for action.

Ice Totally Gaming in London attracts more and more visitors and exhibitors every year.

And this year's event was another great success for Promatic Group.

ICE Totally Gaming is undoubtedly the most important date of all the events in the gaming industry. This is where one can discover all the innovations, present new brands and products and meet the most important figures in the business. The event attracts all kinds of professionals: producers of games and software creators, the largest casinos providers, bookmakers and many others. ICE Totally Gaming, which lasts three days, is also a great meeting place for business talks, but what usually comes first at ICE in London is the presentation of products and opportunity to create new business relations extremely important for the development of all the gaming companies.

This year's exhibition was especially important for Promatic Group - presenting our expanded offer of cabinets, new games and newly launched online games platform, all fully focusing on providing a complete portfolio of products and system solutions, our stand was visited by impressive number of guests and visitors. Our first branded game PUDZIANATOR by Mariusz Pudzianowski (5x World's Strongest Man and current MMA fighter, who was our special guest at the stand) also had its grand premier at ICE this year.
