## DRAGON LEGENDS

We have created **DRAGON LEGENDS** as a set of three machines dedicated exclusively to this game.

In the magical world of the Far East, the player has the opportunity to choose a win multiplier and a bet, which allow access to higher wins and one of four progressive Jackpots.

Special symbols with Dragon, which appear depending on the selected bet, ensure higher wins.

Whenever the Wild Symbol appears, a golden coin falls into the bowl. When the bowl overflows, the coins spill out and the player flips them over to draw one of the available jackpots.

When the player hits **3 SCATTERS**, they win **10 Free Spins**, in which the card symbols are replaced with the remaining symbols, increasing Volatility.

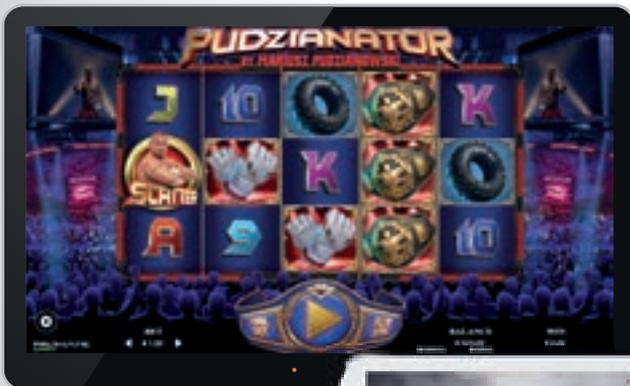

**Dragon Legends** is only available in the set of three cabinets with an integrated progressive Jackpot of four levels: **Mini, Major, Super, Grand**.
